SLAMP:

Out on the streets of the city, when natural light hits a window, a metal railing, or a silver car, the light refracts and bends, hitting other surfaces laterally. Away from the penetrating reach of direct sunlight, we at Slamp are intrigued by those trick effects in which the purity of nature mixes with the urban, the artificial. Moving through quieter streets, you may be drawn towards inversions and reflections. At dusk especially the fading light throws the man-made forward, and turns the city into a kaleidoscope of unexpected images that bring magic to the crepuscular scene. Slamp is expert in capturing these oneiric qualities and bringing them indoors. This summer we want to celebrate the mysterious qualities of light in the home with a stimulating group of new products we are adding to our collection. For example the Helios column lamp is a masterpiece in the making. It builds on the Slamp tradition, perfectly balancing art and technical innovation. Together with several other products puts, Helios puts our new material Lentiflex® to work. This season we launch both the classic Ginetta and the Superstar in this magical material. And we have expanded the Veli range by introducing the largest in the group, also in Lentiflex®. All this adds to a maturing of the entire Slamp family; many designs come in such a broad range of sizes and finishes that together, they deliver one of the most effective and variable resources produced by any lighting company today.

Tra le strade della città, quando la luce del sole si riflette su una finestra, su una ringhiera di metallo o sulla vernice argentata di una macchina, si creano dei riflessi inaspettati che illuminano tutti gli oggetti circostanti. Lontano dalla portata diretta dei raggi del sole, noi di Slamp ci siamo soffermati a guardare gli effetti magici che si creano quando la purezza delle forme naturali si mescola con l'urbano e l'artificiale. Passeggiando tranquillamente per le strade, si può essere attirati continuamente dai riverberi e dai cambi di direzione della luce. Specialmente al crepuscolo, quando la luce soffusa della sera incontra gli oggetti creati dall'uomo, la città si trasforma in un caleidoscopio di immagini sorprendenti che rendono suggestiva l'atmosfera del tramonto. Slamp è esperta nel catturare queste caratteristiche oniriche per ricrearle tra le mura domestiche e quest'estate celebra proprio le misteriose proprietà della luce attraverso una nuova collezione di prodotti. La colonna di luce Helios, che nasce dalla tradizione Slamp, è quella che riesce a farlo meglio bilanciando perfettamente arte e innovazione tecnica. Insieme a molti altri prodotti, Helios mette a lavoro il nuovo materiale Lentiflex®, con cui viene lanciata sia la classica Ginetta che Superstar. Abbiamo anche allargato la famiglia Veli introducendo la versione large in Lentiflex®. Questi nuovi prodotti contribuiscono all'ampliamento della grande collezione Slamp. Design molto diversi, in una così ampia gamma di dimensioni e finiture, rendono Slamp una realtà piena di risposte efficaci e versatili come nessun'altra azienda di illuminazione attuale.

Wenn das Sonnenlicht auf ein Fenster, ein Geländer aus Metall oder silberfarbene Autos reflektiert, erstellen diese unerwartete Reflexionen die alle umliegenden Objekte beleuchten. Ohne Einwirkung der Sonnenstrahlen, haben wir von Slamp uns damit beschäftigt, die magischen Effekte der Reinheit der natürlichen Formen zu beobachten wenn diese mit städtischen und künstlichen Formen gemischt werden. Bei ruhigen Spaziergängen durch die Straßen, können Sie kontinuierliche Reflexionen aufgrund der verschiedenen Licht Richtungen bewundern. Besonders in der Abenddämmerung, wenn das sanfte Licht des Abends auf die vom Menschen geschaffenen Objekte stößt, verwandelt sich die Stadt in ein Kaleidoskop von atemberaubenden Bildern, die beeindruckende Atmosphäre beim Sonnenuntergang machen. Slamp ist Experte für die Aufnahme dieser traumhaften Merkmale, die Sie auch nach Hause bringen können, hierzu bieten wir Ihnen neuen Kollektion von Produkten an die diese mysteriösen Eigenschaften des Lichts erzeugt. Die Stehleuchte Helios, welche aus der Tradition Slamp Tube abstammt, schafft das am besten und bietet optimale Balance von Technik und technischer Innovation an. Zusammen mit vielen anderen Produkten, zeigt Helios die großen Fortschritte des neuen Materials Lentiflex®, das auch die klassische Ginetta Pendel wieder frisch erblühen lässt. Sollten Sie dynamische Linien suchen, ist die Antwort Superstar. Diese neuen Produkte tragen den Ausbau der vielfältigen Kollektionen Slamp bei. Unterschiedliche Design, in einer solchen Vielzahl von Größen und Ausführungen, machen Slamp zu einer Realität voller effektiven und vielseitigen Antworten wie kein anderes Unternehmen der aktuellen Beleuchtung.

Ginetta Prisma

design by Nigel Coates

This winning design never seems to tire; it has appeared in many sizes and colours, and now in Lentiflex®. The Prisma version goes back to Ginetta's origins, to highlighting the effects of crystal and splitting light into oneiric sparkle.

NEW
GINETTA PRISMA

- IRIDESCENT BULB SCREEN

NEW **GINETTA PRISMA**
by Nigel Coates

Dimensions

78 × 78 h 58 cm
1 × 100W MAX - E27 - HALOGEN

made of: LENTIFLEX®
IRIDESCENT POLYCARBONATE®

Suspension

Product code

PRISMA cod. **GINI4SOS0000LE**

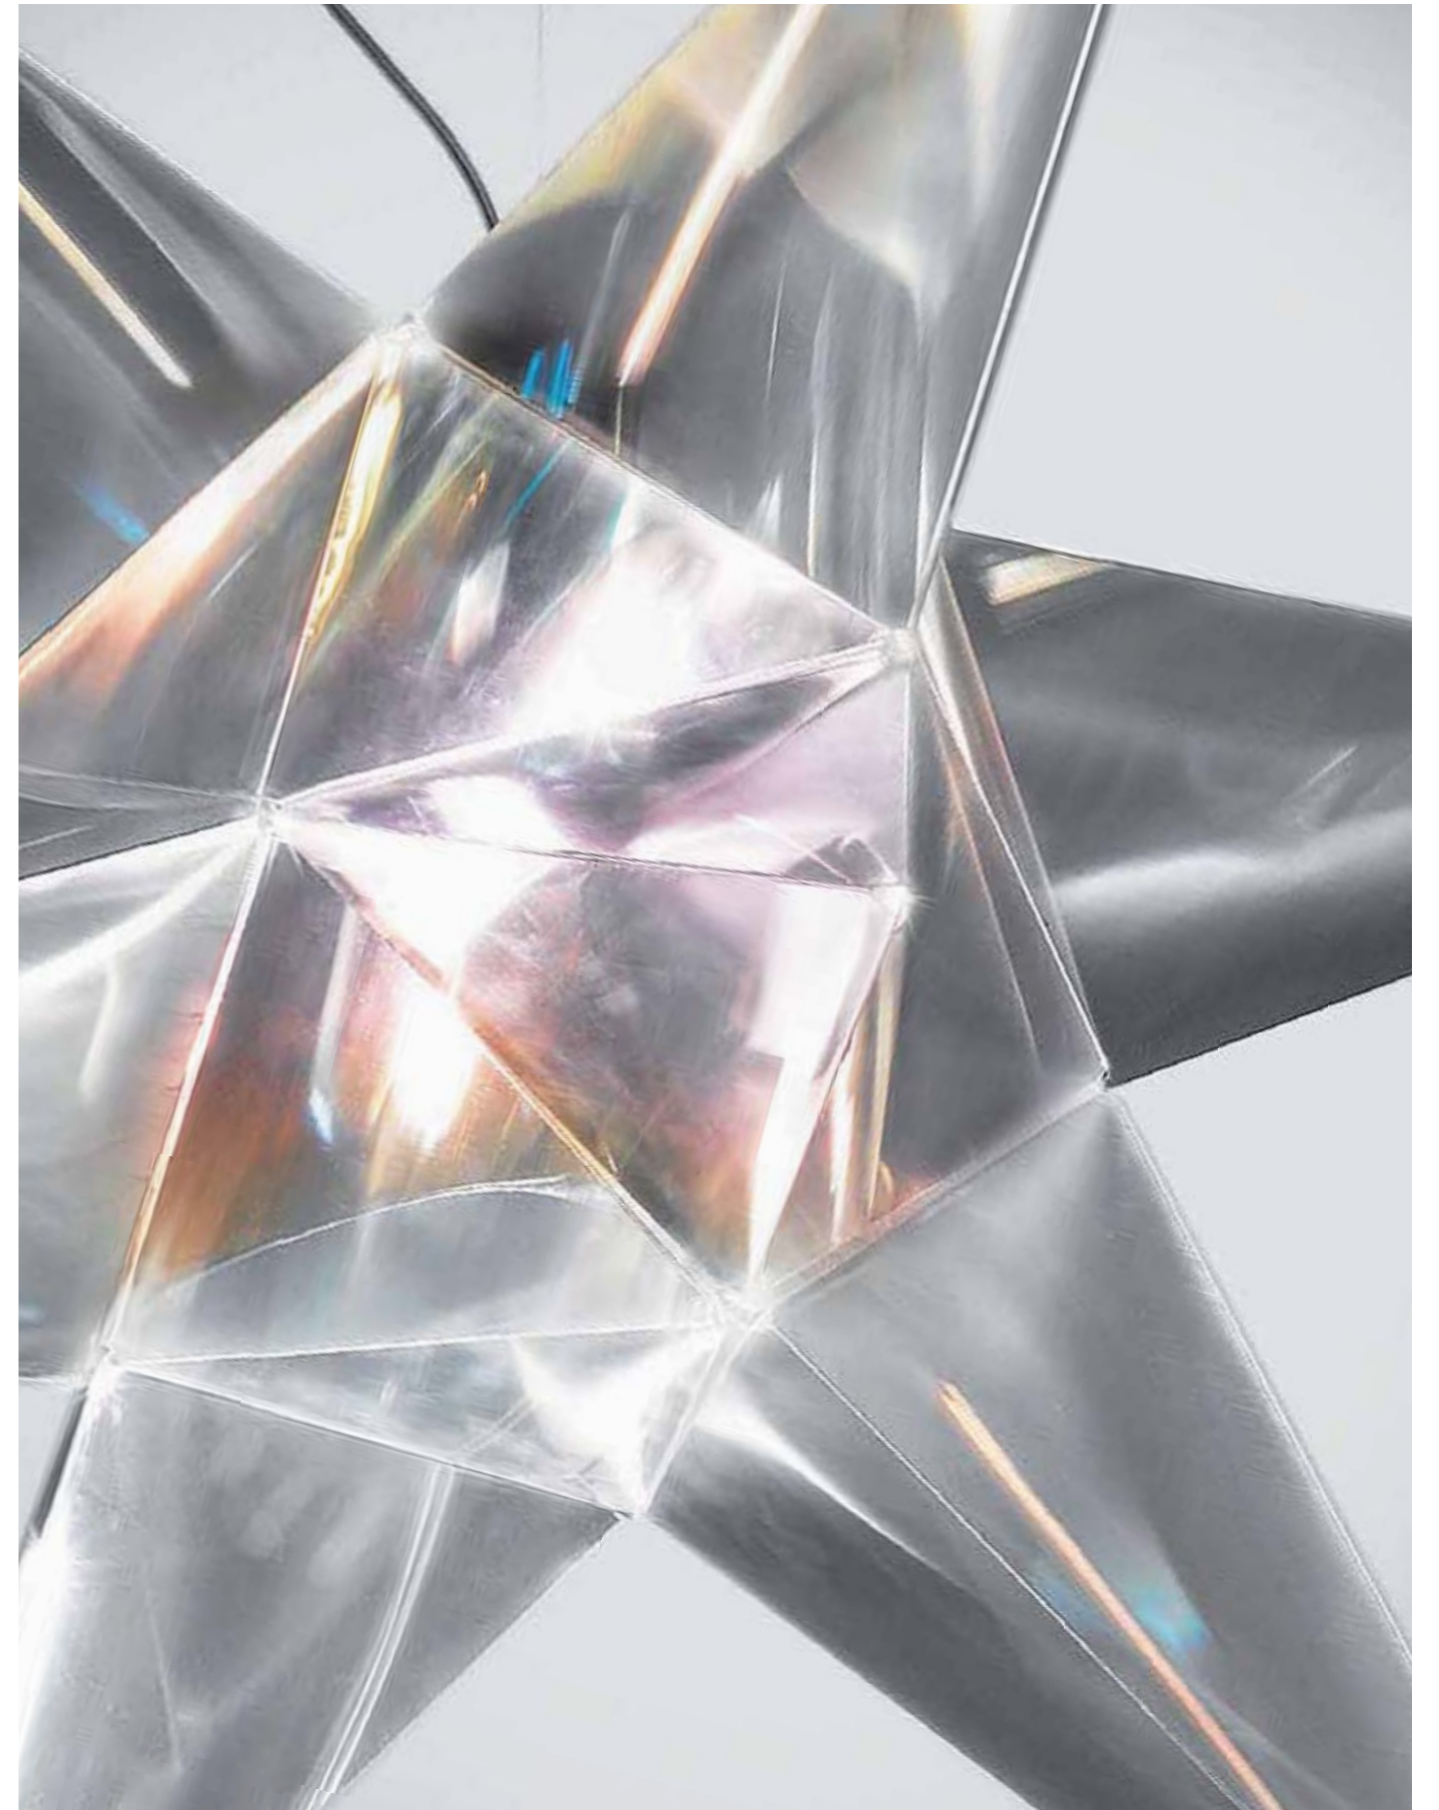

Superstar

design by Pagani-Perversi

If it's a dynamic outline you are searching for, Superstar has the answer. This diagonally tilted stellar shape brings asteroid character into the home. Perfect for an entrance or above the dining table, and a partner to the more pieces in your home.

Helios

design by Slamp Lab

Here's a truly impressive anti-gravity object, a column of swirling, rippling effects that brings light to life on an architectural scale.

Rising from a base of Carrara marble, this clever combination of Plexiglas, Lentiflex® and Osram LEDs brings stature in spades..

NEW
HELIOS

- 50W LED OSRAM, 3000 LUMEN

Woody Suspension

design by Luca Mazza

Incorporating a sense of spontaneity into an arched lamp is all but easy. But Woody manages it with ease.

Now in a range of four colours, it can harmonise well with any colour scheme.

WOODY FLOOR LAMP

Veli 7

design by Adriano Rachele

Here's a gift for the designer of spaces that need a bit of drama;
the Veli 7 transforms the classic into an impressive chandelier
that will add magnificence to any large room.
