

Birdie Metal, table design Ludovica+Roberto Palomba 2014

FOSCARINI

The slim stem recalls the trunk of a tree, its shade is a reinterpretation of the classic reading lamp, while the branch, as if ready for a “birdie” to alight, beckons your touch, turning it on or off. These three elements spontaneously coalesce to give life to a friendly lamp, that combines a smooth and familiar structure with a boldly character. Made with sturdy yet lightweight materials, Birdie has a different personality, depending on the colour: in white, it can be discreet and almost invisible, but in amaranth, orange or grey it becomes more of a prima donna

capable playing the starring role of a room. Always monochromatic, from lampshade to the base for a decisive character without compromises There are two dimensions available for the table lamp, designed to blend in easily with the surroundings. Whether beside an armchair or a sofa in the living room, on the desk in a study, on a bedside table, or in any other room of the house, Birdie fits naturally in and accompanies everyday life with a pleasantly stylish presence.

Birdie Metal, table technical info

FOSCARINI

Description

Table lamp with diffused light. Die cast zinc alloy base and steel rod, both liquid coated. Opaline injection-moulded polycarbonate internal diffuser, translucent injection-moulded polycarbonate external diffuser. In the large version and in the small version with touch dimmer, the sensor is located on the tip of the rod arm and allows the gradual adjustment of the luminous intensity; electronic transformer on the transparent cable. In the small version without dimmer, the ON/OFF switch is located on the transparent cable. small table.
