Safe Catalogue

Part of ASSA ABLOY

The background of the advertisement is a soft-focus photograph. It shows a window with a view of a city skyline. In the foreground, there are several indoor plants, including a small tree in a red pot and some trailing vines. Warm, bokeh-style lights are visible, suggesting an evening or indoor lighting environment.

Yale is trusted by millions of people every day to keep what's important to them safe.

Our innovations have protected their homes, families and belongings for over 180 years. We have expanded from being a leader in mechanical lock engineering to innovating connected smart locks and homes. Because we always make every effort to push the boundaries in a changing world.

We were there for your grandparents (and probably theirs) and we'll be there for your children.

Today, and every day to come.

Smart Safe

Whether it's your documents to your new home or a sentimental belonging, you can keep them safe and secure with the Yale Smart Safe. You can share remote access, receive notifications and enable voice assistant, with the help from Yale Connect WiFi bridge. Making busy modern life a bit easier.

App Control*

Unlock your safe, send access codes and revoke access from anywhere

Activity monitoring

Know when someone has unlocked your safe

Access in a way that suits you

Use PIN code or physical key

**Voice assistant and remote access enabled with Yale Connect Wi-Fi Bridge*

Smart Features

- Control and manage your Smart Safe with the Yale Access APP on iOS or Android smartphone via bluetooth – 2.4GHz and WiFi via Yale Connect WiFi bridge
- Share access code with others via Yale Access APP
- View access history and receive real-time notifications
- Able to work with Yale Smart Locks and accessories in Yale Access APP
- Enable voice assistant integration with Google Assistance or Apple HomeKit

Key Features

- Laser cut door against break-ins
- Two-factor security: on top of your password, the system will check your identity based on either an email or phone number
- Bank level security: AES 128 bit and TLS encryptions
- External 9V battery to gain emergency access to your safe (9V battery not included)
- Time lock when inputting wrong code
- Internal hooks and internal light
- Able to mount on floor / wall
